

## LONGLEAF PLANTING FUND

### Frequently Asked Questions

- *Who is eligible to submit a request? Are the planting funds only for nonindustrial private forests?*

Let us know your category of landownership; these programs continue to grow and we are accepting requests for public and private lands.

- *Are there maximum income restrictions?*

The request form does not include this information, so don't let that be a limitation.

- *What practices are covered?*

We are gathering information here about planting plans and seedling needs. Most funds are available to cover the cost of trees only.

Information for all project expenses can be included with your request as there may be the possibility of covering other expenses as well, but these funds are limited. Contact us directly and we can help connect you to other incentives available for longleaf.

- *Can I submit a request if I have applied for another financial incentive opportunity?*

Planting funds may be used in combination with other funding, but the same practice on the same tract cannot be covered twice.

- *How much money is available?*

Our project partners are still being finalized for the 2021-2022 planting season, but the 2020-2021 planting season was very strong and we are optimistic this next planting season may continue to grow.

- *What is the deadline to submit the request?*

Saturday, July 31, 2021

- *Can I save my request and finish it later?*

Each request generates a unique URL. To come back at a later time, simply bookmark the URL in your web browser or copy/save it to access it later. If you need assistance retrieving your submission for updates, please contact Sarah Crate at [sarah@longleafalliance.org](mailto:sarah@longleafalliance.org).

- *When will I be notified?*

We intend to help as many as we can, but can only assist those we have requests from, to the limit of the funds received from these great partners.
