

LONGLEAF ACADEMY

Fire & Longleaf 201

Fire & Longleaf will guide landowners and natural resource professionals through the longleaf-specific considerations to address when planning to burn. Weather-permitting, there will be a tour of areas managed with fire or a demonstration burn.

Topics covered:

- fire ecology
- burn planning
- burning young longleaf
- fire weather parameters
- ignition techniques
- fire behavior terminology
- smoke management
- long-unburned stands
- prescribed fire for wildlife
- cost-share opportunities
