

MAY 25TH, 2022 LONGLEAF MANAGEMENT FIELD DAY

Dixon Memorial State Forest

Please join us on May 25th, 2022 at Dixon Memorial State Forest for a longleaf management field day. This is an excellent opportunity to get more information on longleaf management and which organizations provide resources to private landowners in Georgia. Opportunities include talks on forest and habitat management, site preparation, cost-share programs, prescribed fire, and forest resource opportunities to include pine straw production. Our backup rain day is scheduled for May 26th, 9am-12pm. If you have any questions, please contact Susan French with The Longleaf Alliance at 813-391-4476 or susan@longleafalliance.org. Registration costs \$10.00 (lunch included). To register, please visit <https://longleafalliance.org/upcoming-events/>
