

Longleaf & Grazing Lands Academy

Longleaf & Grazing Lands Academy will focus on the integrated management of longleaf pine stands with productive grazing systems. Strategies for managing livestock and longleaf alongside other co-benefits and products will be demonstrated through a combination of classroom lectures, field exercises, and tours of working lands.

When:

April 20-22, 2027

Where:

Grand Bay NERR
Moss Point, Mississippi

What You'll Learn:

Groundcover and prescribed fire in grazing systems

Site preparation and longleaf pine establishment

Forage quality for maintaining healthy livestock

Land-use efficiency and sustainable forest management
